

September 2011

Dear Parents,

**Biological Sciences Review magazine**

To supplement the AQA course content for AS and A2 Biology a magazine is available called Biological Sciences Review. Each forty-four page issue explores key topics on the new AS and current A2 specifications through specially commissioned articles. Included in the magazine is a column written by the AQA exam board's Chief Examiner Bill Indge. The articles will provide students with some of the necessary background reading required to achieve the highest grades in advanced level Biology.

Biological Sciences Review is published four times a year in September, November, February and April. Subscription cost £12.50 for the whole year. If you wish your daughter to receive copies of this magazine please complete the slip at the bottom of the letter and return it to Mr Frank by 26<sup>th</sup> September. With your agreement the fee will be added to your end of term bill.

Yours sincerely

Mr S Frank  
Head of Biology

**Biological Science Review magazine request**

Please return this form to Mr S Frank by 26<sup>th</sup> September 2011

Name of student:.....Form.....
